Our kitty has been limping on and off as of late. After she jump down from feeding table which about 2feet high down to hard wood floor. I guess we took for granted a cat ability to jump but, when she down something would hurt her. We were very worried so we brought her in to be checked out. Dr found nothing wrong without taking xrays. Decided to just watch her for a few more days and moved her food to floor and try to keep her from the high jump . Doctor and staff are always very kind and helpful and our kitty seem to like everyone also. She always gets such nice compliments. Thank you.

Dr. M was very patient and explained my concerns with a high level of professionalism. There is something to say about going to a family-operated business. I did not feel rushed and my dog was quite comfortable. The treatment room was huge which suited my giant breed dog very well. Dr. M is a gentle, kind man. I would recommend him.

Dr.MIQUEDA and the women who work there are very helpful and kind and realize how much I love my dog Dozer. He is willing to explain what and why he is doing what he's doing. The doctor and I decided that Dozer needed a tranquilizer so he could be treated. It worked out well-Dozer got his nails cut, blood was drawn, and he received his vaccinations. And he didn't know what hit him.!!!

★★★★★ by Anon on 2016-08-09

I have several issues. Although Dr. Maqeda was attending to another animal, we watched our dogs suffer with hundreds of quills (in one of them) for the better part of twenty minutes, at least. I absolutely think he could have stepped aside for two minutes and injected my dogs with a mild painkiller, and then return to the first animal. My dog Bernie had over a 100 quills in his mouth alone. It was horrible. Secondly, I thought the expense was extremely high, especially asking the same base price for Lola, the aussie shepherd. She had perhaps 5-10% of the quills that Bernie had. I'm happy with the care, but I really think the expense was shamelessly exorbitant. I DID in fact call another veterinarian out side of Middletown. I was told the max expense would've been roughly \$400 total less dollars. It was Ani-Mall if you'd like to call.

They were very helpful and didn't ask any questions when I said my dad didn't have a vet for his dogs. They got his dog in right away who was very sick. I called so many vets that day because he was so sick not eating, not drinking, couldn't walk on one leg and he was just laying in one spot not moving. My husband and I was so worried and Bullville Animal hospital rushed an appointment for us the same day, didn't give me a hard time like the others did because he didn't have a vet yet. They didn't treat me like my pet didn't matter and they didn't care about him they were very understanding and caring on the phone and in person. They showed me that there are still vets out there that aren't all about the money and they are genuinely there to help a pet in need. It felt good and comforting to know someone cared.

They were all very nice and very helpful. They were the only Vet that would see us in our area because he didn't have a vet yet. I called all the vets and hospitals in our area and all said no due to not being established with a vet, they didn't have availability. Even though my dad didn't have a vet for his dog yet they treated us as if he had been bringing him there the entire time. They were quick and provided everything we needed and took excellent care of our furry family member. When we went there he was not drinking, he was not eating, and he was just laying down not moving, and when he did get up he held his one leg up in the air and wouldn't walk on it. After seeing the doctor and starting the medicine given the very next day our little family member was running around, drinking, eating and wagging his tail. What a difference. Thank you Bullvine Animal Hospital.

The atmosphere was relaxed and comfortable for our dog and for us. The staff gave our dog time to adjust in his first visit. They waited until he was comfortable and once the dog initiated contact, that was when the examination started. The staff spoke to us about options and gave us time to make decisions about different options. There was no pressure and they gave us different information to consider. This is our new hospital for our dog!

Always receive the finest care from the staff at Bullville Animal Hospital. Their personal attention to detail sets them apart from larger and more impersonal hospitals. My pets have always felt welcome here and is one of the reasons i continue to have pets-that they will receive the finest care at Bullville Animal Hospital.

We have always love Miguel Maqueda so much. He does have a good patience with us when we ask many questions, giving us a very thoroughly explanation of anything. We do remember how he took real good care of our previous cat, April. We still miss her and think of her. We are so happy that we brought our new cat, Daisy to our home sweet home on May 9th which we had adopted her from Middletown Humane Society, staff there were very nice and thanks to staff of Bullville Animal Hospital for recommending this shelter and gave them my reference about my previous caring of April. We are so happy to have you again for our new cat, Daisy. Keep up with your good attitude and quality service to all. Suzanne/John Schuler (Daisy)

★★★★★ by Rebecca Santiago on 2015-10-28

Hi, I had been taking my 2 cats Smokey and Bandit for 13-15 years since they were 8 weeks old. Everyone there had been a delight and friendly. Unfortunately, Bandit passed away in 2013 and Smokey passed away October 18 2015, that's why I put 13-15 years taking them there. I am very sad right now and do not think I will be adopting a pet in the future. I love hard and get to attach to them as many out there do. I love the staff and won't forget you Doc.

★★★★★ by Linda Geiger on 2015-06-26

First and foremost, I really appreciate that Bullville Animal Hospital saw my cat right away. They knew there was a problem and made an appointment for that very afternoon. Everyone was extremely professional and super friendly. I was so pleased with the care my pet received that I made an appointment for my other cat. I will now be taking all of my pets to Bullville Animal Hospital for all their needs.

---	---	---	---	---	---	---	---	---	---	----

★★★★★ by Gerald Premus on 2015-05-31

Excellent veterinary care and office. Direct contact with Dr. Maqueda, and full Owner education from Doctor and assisting staff. My experience with Bullville Animal hospital is exclusively with cats, and ranges from routine shots to life threatening physical injury. Treatment of that injury had a very successful outcome resulting from scientific, experienced, and practical treatment, and commendable handling by the assistant.
